Date: April 16, 2026

Document Control Number: USSS-REIMB-2026-0416

Prepared By: Brian Michael Frost, Regulatory Compliance & Document Management Specialist
Office of Administration, Executive Office of the President

Section 1: Purpose

This document provides a comprehensive summary of reimbursable costs incurred by the United States Secret Service in support of protective mission operations conducted under interagency agreement. The total reimbursement amount requested is **$462,500.00**. This package is prepared for audit review and financial reconciliation in accordance with applicable federal authorities and fiscal management directives.

Section 2: Authorities

1. **18 U.S.C. § 3056** — Authorizes the USSS to carry out protective operations for designated protectees.
2. **31 U.S.C. § 1535 (Economy Act)** — Authorizes interagency agreements for goods and services when more specific authority does not exist; requires reimbursement on a cost-recovery basis.
3. **31 U.S.C. § 1536** — Governs crediting of reimbursements received under the Economy Act.
4. **OMB Circular A-11, Section 30** — Establishes guidelines for budgetary treatment of reimbursable agreements and the obligation of funds.

5. **OMB Circular A-25** — Provides policy on user charges for government services.
6. **DHS Financial Management Policy Directive 065-01** — Department-level reimbursable agreement and billing procedures applicable to USSS as a DHS component.
7. **USSS Directive ADM-15 (Reimbursable Agreements)** — Internal policy governing the preparation, approval, and documentation of reimbursable support packages.

Section 5: Cost Calculation Notes

8. Civilian labor for Brian Michael Frost is calculated at 2,400 hours × $75.00/hour (fully burdened rate inclusive of benefits and indirect costs) = $180,000.00. This is the only category computed from actual recorded hours and established rate schedules.
9. Military personnel hours are zero (0) for this mission. No military labor costs are claimed.
10. All remaining cost categories (Items 3–9) are rough-order-of-magnitude estimates based on historical mission profiles of comparable scope and complexity. These figures are subject to adjustment upon receipt of final invoices, travel vouchers, and procurement documentation.
11. Overtime and premium pay estimates reflect anticipated operational tempo exceeding standard duty hours.

12. Travel and per diem estimates conform to Federal Travel Regulation (FTR) locality rates and are subject to reconciliation against actual travel vouchers (SF-1012 / DD-1351-2).
13. Equipment and supplies costs reflect estimated consumption and deployment of mission-essential items; final costs will be reconciled against property records and procurement logs.
14. Administrative overhead is calculated as an estimated allocation consistent with agency indirect cost rate methodology.
