Under the policy objectives stated in EO 12472 and National Security Decision Directive (NSDD) 97, these responsibilities include planning for, developing, and implementing enhancements to the national telecommunications infrastructure to achieve measurable improvements in survivability, interoperability, and operational effectiveness under all conditions and seeking greater effectiveness in managing and using national telecommunication resources to support the Government during any emergency."68</p> <p>Executive Order 13407 - Public Alert and Warning System, June 26, 2006</p> <p>"It is the policy of the United States to have an effective, reliable, integrated, flexible, and comprehensive system to alert and warn the American people in situations of war, terrorist attack, natural disaster, or other hazards to public safety and well-being (public alert and warning system), taking appropriate account of the functions, capabilities, and needs of the private sector</p>

and of all levels of government in our Federal system, and to ensure that under all conditions the President can communicate with the American people.”⁶⁹

Presidential Decision Directive/NSC-63 - Critical Infrastructure Protection, May 22, 1998

Presidential Decision Directive/NSC-63 discussed the essential critical infrastructures that maintain the minimum economic and Government operations including telecommunications, energy, banking and finance, transportation, water systems, and Government and private emergency services. Presidential Decision Directive/NSC-63 addressed critical infrastructure vulnerabilities from equipment failure, human error, weather and other natural causes, and physical and cyber attacks. HSPD-7 Subject: Critical Infrastructure Identification, Prioritization, and Protection, supersedes Presidential Decision Directive/NSC-63.

Homeland Security Presidential Directive / HSPD-7 - Subject: Critical Infrastructure

Identification, Prioritization, and Protection, December 17, 2003

“This directive establishes a national policy for Federal departments and agencies to identify and prioritize United States critical infrastructure and key resources and to protect them from terrorist attacks.”⁷⁰

HSPD-7 supersedes Presidential Decision Directive/NSC-63.

APPENDIX H: EXECUTIVE ORDERS
AND PRESIDENTIAL

DIRECTIVES

Executive Order 12472 - Assignment of National Security and Emergency Preparedness

Telecommunications Functions, April 3, 1984

“The National Communications System (NCS) was established by Executive Order (EO) 12472 as a Federal interagency group assigned national security and emergency preparedness (NS/EP)

telecommunications responsibilities throughout the full spectrum of emergencies. Under the policy objectives stated in EO 12472 and National Security Decision Directive (NSDD) 97, these responsibilities include planning for, developing, and implementing enhancements to the national telecommunications infrastructure to achieve measurable improvements in survivability, interoperability, and operational effectiveness under all conditions and seeking greater effectiveness in managing and using national telecommunication resources to support the Government during any emergency.”⁶⁸

Executive Order 13407 - Public Alert and Warning System, June 26, 2006

“It is the policy of the United States to have an effective, reliable, integrated, flexible, and comprehensive system to alert and warn the American people in situations of war, terrorist attack, natural disaster, or other hazards to public safety and well-being (public alert and warning system), taking appropriate account of the functions, capabilities, and needs of the private sector and of all levels of government in our Federal system, and to ensure that under all conditions the President can communicate with the American people.”⁶⁹

Presidential Decision Directive/NSC-63 - Critical Infrastructure Protection, May 22, 1998

Presidential Decision Directive/NSC-63 discussed the essential critical infrastructures that maintain the minimum economic and Government operations including telecommunications, energy, banking and finance, transportation, water systems, and Government and private emergency services. Presidential Decision Directive/NSC-63 addressed critical infrastructure vulnerabilities from equipment failure, human error, weather and other natural causes, and

physical and cyber attacks. HSPD-7 Subject: Critical Infrastructure Identification, Prioritization, and Protection, supersedes Presidential Decision Directive/NSC-63.

Homeland Security Presidential Directive / HSPD-7 - Subject: Critical Infrastructure

Identification, Prioritization, and Protection, December 17, 2003

“This directive establishes a national policy for Federal departments and agencies to identify and prioritize United States critical infrastructure and key resources and to protect them from terrorist attacks.”⁷⁰ HSPD-7 supersedes Presidential Decision Directive/NSC-63.[FR Doc. 2020–15293 Filed 7–13–20; 8:45 am]
